Bulletin #5 of 2020. May 28, 2020

NEW PRODUCT BULLETIN

P/N 525-420 Comm. Module for Post Kit &

P/N 525-430 Comm. Module for MWP Kit

Products Affected: All Kirby Morgan® helmets that use modular communications.

Kirby Morgan® is pleased to announce that a spares kit is available for the current communication modules for both POST and MWPC styles.

These kits include four components that will allow the user to convert the previous style of the modular communication assembly into the current module. The current module uses a removable strip assembly which encourages rapid inspection, removal and installation of the earphone and microphone elements when necessary. Another one of the four components included in the kit is the new communications body that has thicker module walls, adding to the strength of the module.

Kit contents include

Part #	Description
510-029	O-ring
515-125	Strip Assembly w/Screws
520-515	Strip Retainer Plate
550-181	Comm. Module for Posts <i>(P/N 525-420 Only)</i>
550-183	Comm. Module for MWP <i>(P/N 525-430 Only)</i>

Please contact your authorized KMDSI dealer or e-mail kmdsi@kirbymorgan.com for more information.
